JERUSALEM INTERNATIONAL FELLOWS

Dear <<First Name>>,

Whatever holiday you observe, we want to wish you a happy and light-filled end of the year and a HEALTHY, PEACEFUL 2023.

2013 Fellow and daylight architect Davidson Norris spent his residency in search of the light of Jerusalem. He sent his Bezalel students all over the city to find the places where that light was best revealed. He taught us how the very special quality of Jerusalem's light comes from the collision of the light of the sea and the light of the desert, reflected on all that Jerusalem stone. So, while I do love Paris, to me Jerusalem IS the City of Light.

The world certainly needs A LOT of light in these literally dark times. And artists bring illumination to every aspect of our lives. We certainly saw that during our residency this past Spring.

Speaking of light...

OFRENDA, the film made by Claudia in memory of her father, renowned composer Mario Lavista, was shot in multiple locations in and around Jerusalem, including a tiny room in the Tower of David, at Lifta, Ein Prat, and in the desert.

In the [film](#) you will see the names of the many Jerusalem-based designers and crew members who worked on it. The film features the extraordinary dancer Yulia Mezhetskaya, who was introduced to Claudia by Elad. She also performed in the dance Claudia created at Jerusalem's new Brown Hotel as part of Catamon's series [ROOM SERVICE](#).

Mexican filmmaker and the film's director, Alexander Daum, joined Claudia for the final weeks of the residency. The audience had the privilege of seeing "outtakes" that were shot that very day during Claudia's final "work-in-progress" showing at the [Bloomfield Science Museum](#). The film was edited once they were back in Mexico and has been shown to great acclaim at multiple festivals.
