JERUSALEM INTERNATIONAL FELLOWS

Dear <<First Name>>,

I hope you and yours are well. Happy New Year to all who celebrate.

The evaluators of the **2022 Jerusalem International Fellows** concluded that: *As a pilot launched in less than optimal time constraints, the program had a resounding impact already, and with a few tweaks and improvements, can easily become a permanent fixture in the Jerusalem community, with host organizations lined up to take part.*

If you would like to hear directly from the Fellows about their experience - and ask

From the conclusion of the JIF Evaluation:

"The ten-weeks were filled with meaningful introductions, experiences, and creative collaborations. The nucleus was just four artists, each matched with a host organization. Together, they inspired many people in various disciplines across west and east Jerusalem."

If you are interested in artists, culture and the incredible City of Jerusalem, please support the future of this remarkable cultural residency program. We welcome and are grateful

"The overwhelming number of significant relationships that were created by the artists, beyond those they made within their host organizations, far surpassed expectations."

From the artists:

ANNA:

"Overall, I made real friendships and got to understand Jerusalem on a very, very deep level-- which I think was the point. And was definitely achieved. This was an amazing life changing experience in many ways. I developed strong relations with people, and I will only begin to understand it once I've had time to digest it all."

VIBHA:

"Every residency has it's specificity. Here the orientation included engaging tours to understand some of the layers and complexities that

layers in Israel, leaving room for us to pick and choose. Other residencies have the host organization explain the local scene from their own perspective. The Jerusalem Fellowship gives me more clarity. Here I think of politics as differences, which is a big change in my work.”

CLAUDIA:

"They prepared us well... Then we were free to explore... like the 7 gates of the Old City. It was up to us to decide which doors we wished to enter and when...Jerusalem is a labyrinth. You need to be strong and find your way...I opened a window and found a garden. Now it will grow.”

SOFIA:

"There was a shared sense of something important taking place...What we started at Ibdaa needs to continue for the sake of humanity. It was really something special that has great potential to change perspectives and enrich the children’s lives through art.”
